FEATURES AND BENEFITS

TITAN HYDRAULIC

TITAN 96 HYDRAULIC

FEATURES

- Hydraulic Steering
- Mechanical Drive
- Low Operator Fatigue
- Super Heavy Duty Gearbox
- Pneumatic Seat
- Blade Access Panel
- Tier 4 interim diesel
- Spray System
- LED lights
- Variable Blade Pitch
- Four lifting eyes

TITAN MECHANICAL SERIES

TITAN 78

TITAN 88

TITAN 96

FEATURES

- Low profile design gives the operator greater visibility of the blades
- Lower center of gravity eliminates rocking during directional changes
- LED Lights in front and rear for better visibility in low light
- Multiple engine selections available – up to 37hp
- Greater RPM (Up to 180 RPM with select engines)
- Control panel includes cup holder, USB charging and hour meter
- Optional 225lb weight kit for tougher applications
- Lift off front panel for easy maintenance
- Titan series mechanical riders use the same major parts to reduce parts inventory
- New upgraded seat with arm rests
- Interchangeable steering positions (inboard or outboard) for operator comfort
- Engine compartment lighting for easy service in low light
- Heavy duty gearbox for longer life
- High Quality Grizzly Blades included
- Under-seat single lift hook
- New compact transport system
- Toolbox standard on certain models
- Under seat safety switch

FEATURES

BXR 836

"The Boxer" is a lightweight introductory unit for those that need greater production than walk behind trowels, but don't have the need to for a professional rider. This low-profile machine gives you the productivity of three walks, but is compact enough to fit in the back of a standard pickup truck. The Boxer features four lifting handles for manual lifting and intuitive controls for the novice operator. Non-overlapping design and high power allows you to pan or float prior to finishing.
